

RodoSol-LR-HR Dataset – License Agreement

The RodoSol-LR-HR dataset contains 100,000 license plate (LP) images created from the [RodoSol-ALPR](#) dataset, which has images of different types of vehicles (e.g., cars and motorcycles), captured during the day and night, from distinct pay tolls, on clear and rainy days. The RodoSol-LR-HR dataset is intended to assist research efforts in developing and evaluating algorithms for LP super-resolution. It is released **only** to academic researchers from educational or research institutes for **non-commercial purposes**.

Terms and Conditions

The use of the RodoSol-LR-HR dataset is governed by the following terms and conditions:

- This dataset is provided “AS IS”, without any express or implied warranty. Although every effort has been made to ensure accuracy, the authors do not take any responsibility for errors or omissions;
- Without the expressed permission of the authors, any of the following will be considered illegal: redistribution, modification, and commercial usage of this dataset in any way or form, either partially or in its entirety;
- For the sake of privacy, all images in this dataset are only allowed for demonstration in academic publications and presentations;
- All users of the RodoSol-LR-HR dataset agree to indemnify, defend and hold harmless the authors, the Department of Informatics and the Federal University of Paraná, their administration, officers, employees and agents, individually and collectively, from any and all losses, expenses, and damages. The user agrees to take full responsibility and pay all damages, claims, judgments or expenses resulting from the use of the RodoSol-LR-HR dataset.
- All publications using the RodoSol-LR-HR dataset should cite the following reference:
